***Allowable Subject Matter***

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance: The reasons are fully set forth in the last Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Samsoondar discloses a method for handling liquid samples for analysis which includes aspirating liquid sample into a tip and sealing the end of the tip. The sealed tip is subsequently utilized as a receptacle for further aspiration, reaction, and analysis. Samsoondar fails to suggest any of the presently recited steps by which a sample is aspirated from a tip to a test element for analysis, subsequently sealing the tip, and ejecting the sealed tip for additional analysis of sample liquid remaining in the ejected tip.

Jacobs et al (EP 0864867) is a foreign counterpart to US 5846492, which was already considered and made of record.

The remaining prior art references cited by applicant are considered pertinent as background information only.
